Have you ever used the Seay Guano Distributor? If you have not then it will save you both time and money to try one if you are in need of/such a machine on your farm.

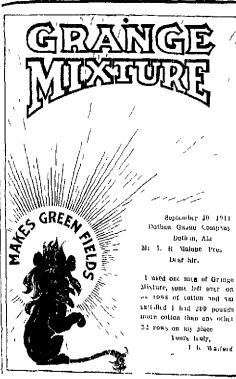

It is one of the very few machines of its kind that will distribute evenly fertilizers whether wet or dry, makes no difference.

Buy one from us and if you are not satisfied with it after a thorough trial then return same to us and get your money back.

This looks like a fair proposition to a man up a tree. Don't you think so?
